## DON'T BE BALD

Tells How to Make Hair Grow Thick and Lustrous on Bald and Thin Spots.

Thousands of men and women are growing bald every day and don't know the reason why. This is indeed a pity, says a hair specialist, who states that baldness usually comes from carelessness.

The treatment is very simple; remove the dirt by shampooing every ten days and destroy the dandruff germs by frequently applying a little of the real Parisian Sage, a most efficient preparation that the best druggists are now recommending as one of the quickest and safest treatments to surely stop scalp itching and falling hair, remove all dandruff and to properly nourish and invigorate the hair roots.

Parisian Sage is also the discriminating woman's favorite hair dressing, because it makes the hair seem twice as abundant and gives it a softness and luster that compels admiration. A generous bottle costs but little from the Red Cross Pharmacy, who guarantee it to you.—Adv.
